

MILLAR

When every detail is designed, built, fitted and finished by people who are truly masters of architectural joinery and fine detailing. Then and only then, do we say it's been *made by Millar*.

MILLAR

Windows

WINDOW TYPES

- _Sliding sash windows
- _Casement windows
- _Casement sash windows
- _Flush casement windows

All our windows are made to your specifications from the very best wood available to us. They are made to reduce heating costs, reduce noise and last for many years.

ONLY THE BEST MATERIALS

We use only the very best wood available to us including Accoya® high performance wood and all timber is moisture tested upon reaching our workshop, it also goes through a strict internal process whilst being made.

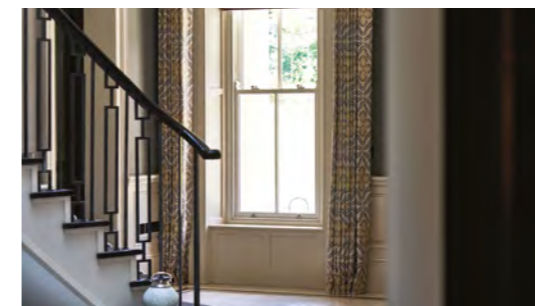

BUILT TO LAST

Upgrade to our 'A' rated Windows; top of the range and BRFC certified - the highest standard a window manufacturer can achieve. Our 'A' rated option makes sure you receive the highest energy efficiency rating available on the market.

BEAUTIFUL AND ENERGY EFFICIENT

Our windows are low maintenance and reduce energy and heating costs. Your bills will be reduced and your house will stay warm and cosy for years to come. You can even opt for our 'A' rated windows to further conserve heat.

SAFE AND SECURE

PAS 24 is a test standard used to assess the security performance of windows and doors and all our products have been tested and meet the latest part Q requirements.

Doors

Designed for beauty, security and exceptional protection against the elements our timber doors allow for a high level of customisation to ensure the perfect fit.

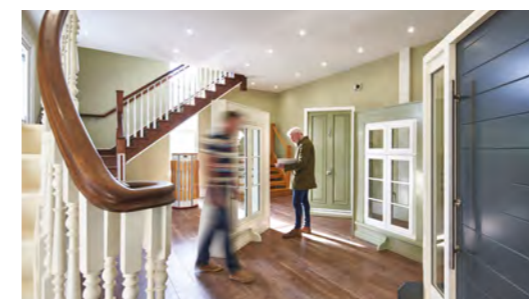

CHOICE

Our range of hardwood timber doors include entrance frames, single door kits, lift and slide doors and bi-folding doors and if you can't find what you are looking for we can make it to your exact specifications. Our selection includes Accoya® high performance wood.

A FINISH TO BE PROUD OF

We pre-finish all our products in our in house spray facility using only a water-based painting system. The water-based application significantly reduces harmful emissions and disposal issues associated with other solvent based systems. This process allows timber to breathe and adapt to climatic changes and provide maximum protection against weathering, UV degradation and fungal attack.

FIND YOUR PERFECT MATCH

Whether you're looking for an entrance door, bi-fold door, lift and slide door or french door we can help. Our comprehensive range of doors, glass options and solid panels means you can find the perfect match for your building.

Staircases

STAIRCASE TYPES

_Traditional

_Curved

_Contemporary

Millars crafted wooden staircases are as individual and bespoke as the people they are made for and are tailored to suit your own personal taste, custom sizes and specifications.

CUT-STRING OR CLOSED PLAN?

Choose from either a cut string or a closed plan staircase depending on your preference and let our designers do the rest.

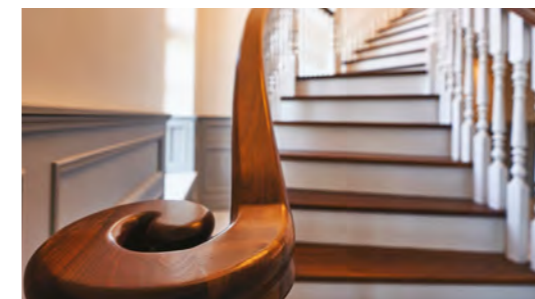

A RANGE OF SPINDLES & NEWEL POSTS

We have a wide range of designs available for you to choose from; from contemporary to modern classic to traditional, the collection includes more than 20 individual styles.

QUALITY MATERIALS TO YOUR SPECIFICATION

We only use the best materials for our traditional staircases – take your pick from white oak, ash, walnut, mahogany, tulipwood or Accoya® high performance wood and let our designers create the perfect staircase for your home or building.

THE PERFECT HANDRAIL

We currently offer a comprehensive range of designs for all wood choices, we also have the ability to create bespoke stair parts or components made from an alternative timber or with a completely unique design.
